OBJECTIVE

Seeking an entry-level position as a Software developer to leverage my skills in building efficient and user-friendly web applications, contributing to a dynamic development team.

EDUCATION

Bachelor of Technology - Computer Science & Engineering

Techno India University

2019-2023

Kolkata, India

- CGPA - **8.1** (till 7th sem)

Higher Secondary Education

Contai High School

2017-2019

Contai, India

- Secured: **81%**

TECHNICAL SKILLS

- **Languages:** C++, Javascript, HTML, CSS, SQL
- **Frameworks / Libraries:** React Js, Redux, Tailwind CSS
- **Tools:** Visual Studio Code, Github, MySQL

PROJECTS

Country Info Finder | React Js, Tailwind CSS, REST Countries API | [Link](#)

- Developed a web application using React and Tailwind CSS that allows users to search for and retrieve detailed information about countries.
- Utilized the REST Countries API to fetch data and display relevant details such as population, region, subregion, and borders.
- Implemented a user-friendly interface with features like region filtering and name search for improved user experience.

Task Manager | React Js, Sass | [Link](#)

- Built a task management web application using React and Sass, enabling users to efficiently organize and track their tasks.
- Implemented features like task creation, updating, and deletion, along with status-based categorization (Backlog, In Progress, Done).
- Utilized local storage to persist task data, ensuring seamless user experience across multiple sessions.

CODING PROFILES

- **LeetCode:** leetcode.com/Avik_20
- **GeeksforGeeks:** geeksforgeeks.org/user/nayakavik19
- **HackerRank:** hackerrank.com/Avik_N

ACHIEVEMENTS

- 5* C++ on HackerRank.
- Institute rank 94 on GeeksforGeeks.
